# CALL OF COURTESY

Catholic Charity Workers  
Greet President Taft.

NATIONAL MEETING HERE

Three Sessions of Conference Held  
Simultaneously Today.

VARIOUS TOPICS DISCUSSED

"Needy Families," "Dependent Children" and "Delinquents" Among the Themes—Objects Outlined.

Hundreds of delegates to the second biennial meeting of the National Conference of Catholic Charities, which opened yesterday at the Catholic University, were received this afternoon at the White House by President Taft.

Three sessions of the convention were held simultaneously this morning at the university and addresses were made regarding "needy families," "dependent children" and "delinquent children."

Robert Biggs, member of the committee for reorganizing the housing code of the future, told of the success and results of his work in the city of New York.

Care of Defective Children.

Rev. Michael McCarthy, S. J., who in New York has made a study of the present methods employed in the caring and training of defective children, told of his observations and discoveries. Dr. Mary O'Brien Porter, chairman of the Protection of the Catholic Women's League of Chicago, who has studied mentally and physically defective children from both the humanitarian and scientific standpoint, made an address containing many suggestions.

Afternoon and Evening.

Other meetings this afternoon will be that of the Catholic Women's League and of the Society of St. Vincent de Paul, both at the Continental Hotel. The program for tonight follows:

Opening Services Yesterday.

The convention opened yesterday morning with the celebration of mass, and a sermon dealing with charity and correction work by Rt. Rev. J. P. Regis Canavin, Bishop of Pittsburgh. Commissioner Johnston welcomed the delegates to Washington at a public meeting at the university last night.

Mgr. Thomas J. Shahan, rector of the Catholic University, spoke on "The Church in Charity," reviewing the work done by the Catholic Church since its foundation.

Mgr. Mulry is president of the Superior Council of St. Vincent de Paul Society, New York, and a member of the board of charities of the Empire state. He pointed out that state supervision of private charitable institutions had been a great benefit both to inmates and to the institutions by the provision for the segregation of the various classes of dependents.

The Rt. Rev. Mgr. McMahon, director of Catholic charities of the state of New York, spoke on "Culture and Charity."

Two Committees Named.

The convention then appointed two committees, one on organization and the executive committee. The following are the members of the organization committee: J. Fitzgerald of New York, chairman; Mrs. J. M. Molanphy, Pittsburgh; Rev. Joseph P. Ruesling, Nebraska; James F. Kennedy, Chicago; Dr. Helen Brockley, Toledo, Ohio; Richard Crane, Cincinnati; Dr. John A. Morgan, Boston; Richard M. Reilly, Lancaster, Pa.; and Mrs. P. J. Toomey of St. Louis, Mo. The committee on resolutions includes Dr. James E. Haggerty of Columbus, Ohio, chairman; Brother Barnabas, Lincoln, Neb.; and Mrs. Thomas J. Burns of Chicago.

The executive committee is composed of Mgr. T. J. Shahan, chairman; the Rev. Dr. William J. Kerley, Washington; Dr. Edmund J. Butler, New York city; the Rev. P. J. Boyle, Little Rock, Ark.; Charles J. Carpey, St. Paul, Minn.; Richard Crane, Cincinnati, Ohio; James A. Flaherty, Philadelphia, Pa.; Lawrence Gannon, Dubuque, Iowa; Thomas Foley Hahn, Baltimore, Md.; Mrs. John McMahon, Chicago, Ill.; Mrs. J. M. Molanphy, Pittsburgh, Pa.; Daniel B. Murphy, Rochester, N. Y.; the Rev. Dr. John A. Ryan, St. Paul, Minn.; Mrs. Thomas Taylor, Austin, Tex.; David F. Tilley, Boston, Mass.; Miss E. A. Waldo, New Orleans, La.; and Dr. Charles Wingenter, Wheeling, W. Va.

The conference will continue its sessions tomorrow and Wednesday.

Sport in the Metropolis.

From Judge.

Smith—There doesn't seem to be any closed season for game in New York.

Jones—No. And they're always hunting for the man higher up.

# Opening Fall 1912

## 1912 Kann's Millinery Opening 1913

FOR FALL AND WINTER

DECLARED BY THOSE IN ATTENDANCE TODAY TO BE THE MOST BRILLIANT, DISPLAYING THE MOST MARVELOUS ASSEMBLAGE OF EXQUISITE STYLES EVER SHOWN BY THE HOUSE OF KANN. YOUR ATTENDANCE IS EARNESTLY DESIRED.

## French Pattern Hats at \$25 to \$65

In their rare and subtle combinations of colors, came in for many expressions of delighted approval, but tomorrow we want you to especially note the close copies of French models and beautiful original creations we offer in

## Trimmed Hats at \$12.50 and \$15

These are of rich hatters' plush, of handsome velvets, moires, in the Americanized adaptations of the imported shapes. Black and white, taupe and white and all white hats you will find predominating; also that gold and silver laces appear here and there and small wings laid flat upon the upper and under side of broad-brim hats are features of the new trimmings.

Everything, as those who visited the exhibit today can testify, has been done to make this Fall Opening display a notable success, and if you are undecided about the style of your new hat you should be here tomorrow to settle the important question.

Millinery Store—Second Floor.

## Makers Co-operated With Us to Make Our Opening Days Memorable

—AND SOLD US

## \$25 to \$35 Fall Tailored Suits \$16.75

At a Price That Permits Our Saying . . . . .

When we went to the makers with whom we do the most business and asked them for some especially attractive offering for our Opening Days we met with instant co-operation—and these \$16.75 Fall Tailored Suits are the result. Splendid tailored suits, indeed; tailored faultlessly, and fashioned of the most stylish fabrics, such as two-tone diagonals, whippoorwill, federal serge, Bedford cords, chevrons and broad cloths.

Plain man-tailored or elaborately trimmed styles, with braid and velvet used lavishly.

Coats are in the new cutaway and straight-front effect, and are longer than those of last season; skirts are embellished with foot pleats. The new fall shades are fully represented.

ALL SIZES FOR YOUNG GIRLS AND FOR GROWN WOMEN.

NAVY TESTS GYROSCOPES

Great Secrecy Maintained Regarding Experiments on Invention of Officer.

NEW YORK, September 23.—Great secrecy is being maintained at the Brooklyn navy yard regarding a series of gyroscopic tests which has been going on aboard the destroyer, Worden.

In a dispatch to the navy department, it is said that naval officials hope by the use of the contrivances to solve the problem of preventing the rolling of a war vessel while under way or in a heavy sea.

The success of the experiment, it is asserted, would mean a considerable increase in the speed and usefulness of the smaller naval craft under battle conditions.

The gyroscopes, two in number, are placed on the main deck of Worden, one on the starboard and the other on the port side. They are about four feet in diameter.

Superior to "Passive" Type.

The type is the invention of a naval officer, and is said to be far more accurate—and, therefore, superior in effect—than the so-called "passive" gyroscopes used with great success by the Germans.

A torpedo-boat destroyer like the Worden has an angle stability of 30 degrees. In the great storm last Christmas, in which a fleet of torpedo boats was loaned about and badly damaged on the way to Cuba, one of the boats is said to have rolled 110 degrees. She dipped water with her smokestacks.

## Continuing the 2d Week of the Sale with 238 Beds at Special Sale Prices

We have received the entire purchase now with the last shipment just in, and if history repeats itself the sales this week will be phenomenal, as many who purposed buying beds last week have had opportunity to compare prices, and will, in consequence, come here to purchase.

## Three-Fourths of the Beds Offered in Tomorrow's Sale Are of the New Bakelite Lacquer, Guaranteed Untarnishable

A lacquer that is immune from acids of all kinds. Look for the red Bakelite stamp.

Also included in the sale are about 21 samples, slightly marred from handling, at big price cuts tomorrow.

NEW DEAL FOR OARSMEN.

Light-Weight Seniors to Race Among Themselves.

NEW YORK, September 23.—The proposal of the Canadian Association of Oarsmen to give the men of 140 pounds or less a chance to win a few more races after they have arrived in the senior class is meeting with considerable favor. It was tried out in senior doubles at the recent Middle States regatta, when Hart and Emery won in the class limited to 140 pounds or under. This event will undoubtedly be added to the program of the next Harlem regatta, and a great race is expected between the Lone Star and Metropolitan crews.

LOTTERY IN ICELAND.

Government Grants Concession to a Syndicate.

Foreign Correspondence of The Star.

COPENHAGEN, September 6, 1912.

With the view of increasing its revenue the Icelandic government has granted a concession to a lottery-promoting syndicate.

As the Icelanders have little or no money to spare for lotteries the syndicate has obtained the right to sell tickets in Denmark, where a more profitable field is afforded for their enterprise.

Lotteries are increasing in favor in Denmark, and the Danish government, which already guarantees four such ventures, reaps a substantial revenue from this source, and also from gambling on race courses, of which the state gets a fixed percentage.

To Defer Recognition.

They have agreed that recognition should be deferred until the present provisional government gives way to a constitutional government. The necessary steps to that end are rapidly being taken, and general elections will be held in the provinces in October, and November for members of the constituent assembly, which will adopt a regular constitution and provide for replacing permanently the present advisory council, which temporarily is administering the affairs of the country.

When that is done the United States, they believe, will be forced to recognize the new republic.

YANKES BEST ON WATER.

America's Record Against England All One-Sided.

NEW YORK, September 23.—For a period of sixty-one years England and America have been engaged at intervals in contests of speed on the water.

Twelve times the question has been disputed with sailing craft and four times with motor boats, and only once previously has the contest been decided on an English vessel won a single contest.

That was in 1871, when the English schooner Javonia won a day's race of a series of five for the America's cup.

MAKING THE OIL DISSOLUTION SUIT

Absence of Undermyer During Standard Hearings Gives Rise to Reports.

NEW YORK, September 23.—Samuel Undermyer, counsel for the Waters-Pierce interests in the litigation with the Standard Oil Company, was not at his office today when the hearings were resumed, and it was understood that he had gone to Washington for a conference with government officials relative to the possibility of reopening dissolution suit against the Standard company. Dispatches from Washington last week said that the government was "closely watching" the situation.

Associates Are Reticent.

Mr. Undermyer has sought to show, in his recent cross-examination of witnesses that the Standard Oil Company still dominated its former subsidiaries. As he also is counsel for the government in the so-called money trust investigation, however, it is possible he has been summoned to Washington for a conference concerning that matter.

His associates at his office declined to say what had called him away from town.

It matters little what it is that you want—whether a situation or a servant—a want ad in The Star will reach the person who will fill your need.
